

Products Description

6G optical lens

Refused to a corner • An unobstructed view

FHD night vision and image clearly

SONY IMX323 FHD sensor

Support Red&Blue LED lights

- Red&Blue LED lights interval flashing •

Support Laser positioning LED lights

Laser LED lights help determine the center of the image

5000mah Large capacity built-in battery

- **18 hours** of battery life

1920x1080p30

Only recording

- **10 hours** of battery life 4G

720p30 stream live

don't need two batteries, need only one

AES256 file encryption

Data encryption to prevent leak

■ Support Assisted Global Positioning System

Fast download ephemeris, further speed up the location

Even in dense buildings, it can be quickly located

■ Support LBS

GPS location over 4G/LTE cellular networks worldwide.

Product Structure

Auxiliary lights

■ Support RED&BLUE

Identify distance $\geq 20\text{m}$

■ Support Infrared lamp

$\geq 4\text{m}$

FOV 90°

The Button

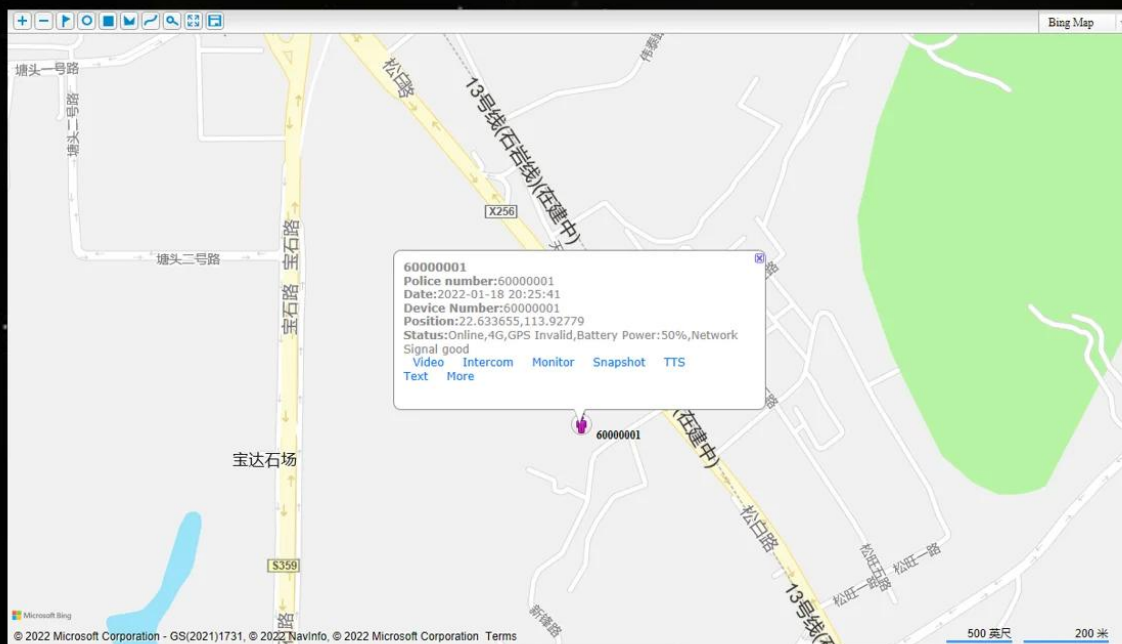

Platform(Online management)

Live streaming via 4G

Look at the map

Watch live stream on your phone

Live stream can be viewed via WIFI

Product Parameters

Product name	4G body camera (basic recording version available)
Video encode format	H.264
Video resolution	1080P/720P/480P
Display	TFT

Lens	FOV: 120° Fno: 2.8mm Aperture: F/No 2.0
NETWORK	4G: YES WIFI: YES BT: NO
GPS	GPS+BD
LIGHTS	Infrared: >5m White light: >5m Red&Blue: >20m
The Button	PTT/Power/Record/Audio/Capture/SOS/Laser/Menu/Up/Down/Back
Battery Capacity	Built-in 5000mah
Size	volume: 96*62*34mm weight: 200g
Working Temperature	-20°C~+70°C
