camera

Road facing
camera

External GPS Dashcam

In-cabin
camera

Road facing
camera

2CH Right-hand Driving

Road facing
camera

Flexible
angle

In-cabin
camera

Parameter

- * 265/H.264 hardware compression, powerful AI processor, with neuronal logic reasoning engine, support for deep learning algorithms.
- * Integrated ADAS camera, can expand 1-2 AI camera input. Support DSM and environmental monitoring.
- * ADAS assist driving function——Integrated with ADAS camera, advanced auxiliary driving warning function can be realized (supporting lane departure detection and warning, front-vehicle collision detection and warning, vehicle proximity warning, etc.)
- * DMS camera driving behavior analysis——It can connect the DMS camera to give alarm warning and upload to the monitoring center for dangerous driving behaviors of drivers, including: fatigue (closing eyes, yawning), distraction, smoking, talking on the phone, etc
- * Driver face recognition function——Face recognition attendance on the basis of management can also prevent the driver illegal substitution, non-compliance of the driver

operation of the problem, standardize the driver and operation management.

* Beidou /GPS positioning, support the ministry of JT/T808, JT/T1076, JT/T905, Geely, Su Biao and other platforms to report transmission.

* ABS material

* The machine has a high reliability design, can achieve continuous monitoring in -30°C~70° environment.

Applications

Suitable for Ride-Hailing car/ uber/taxi, van, etc.

Attention .

About this dashcam, you are required to install an app with Android phone to do configuration or settings, if you only have iPhone, you need to use a computer to install a android simulator, or we can help you to do this before delivery, feel sorry for the inconvenience caused to you.

Company Profile

Shenzhen Richmor Technology Development Co., Ltd. is a High-tech manufacturer specialized in digital and intelligent mobile video products, with rich experience in developing, producing and after-sale service over 18 years. Products mainly include SD card MDVR, Hard disk MDVR, MNVR, True-AI MDVR, dashcam, cameras, monitors, etc. We concentrate ourselves on providing customers with the most advanced technologies and products.
